

SS Food Mixer Machine

Shree Laxmi Stainless Steel Food Mixer machine rotates 360 degrees and flips. Our Industrial Stainless Steel Food Mixer has a paddle in the middle. When the mixer is running, the mixing blade rotates at the same time. The rotating double-cone barrel makes the materials in the barrel produce chaotic tumbling mixing, while the high-speed rotating mixing blade breaks the agglomerated materials to make the materials mix quickly in the barrel.

Usage/Application Food Processing, Cosmetic and Packaging Machinery

Country of Origin Made in India

Thickness 5.0 mm

Material Stainless Steel 304, 316

Capacity 25kg to 1200kg

Available Capacity: 25kg, 50kg, 100kg, 150kg, 200kg, 250kg, 350kg, 500kg, 750kg, 1000kg, 1200kg.

Our Stainless Steel Food Mixer adopts mechanical seal, the powder will not leak, the bearing service life is long. It has high mixing efficiency, high working efficiency, low labor intensity and easy operation. Our Food Mixer can be used in magnetic powder, ceramics, chemical, pharmaceutical, feed, food and other industries.
